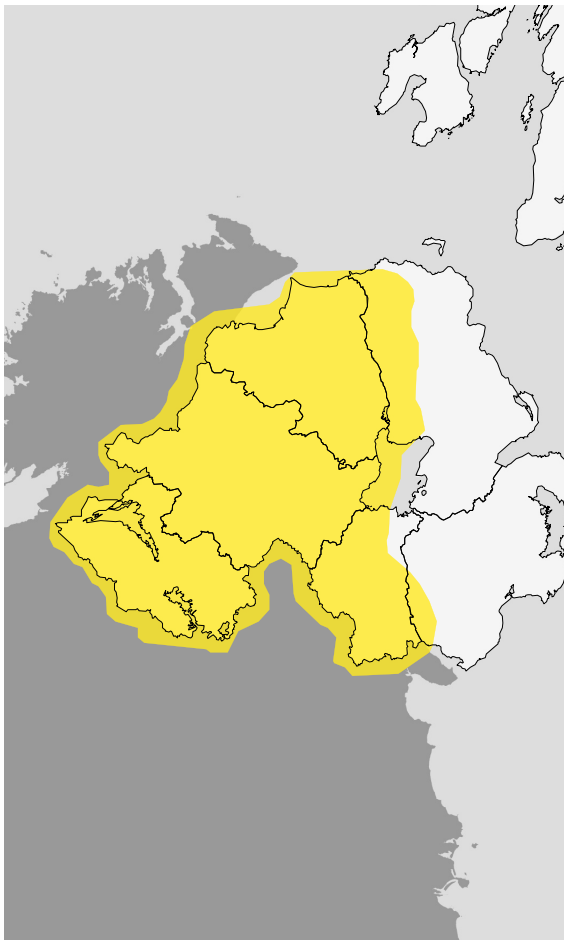
Yellow warning
Thunderstorm

Between
08:00 Tue 21 May 2024 and
21:00 Tue 21 May 2024



While some places miss them, heavy rain and thunderstorms are likely again on Tuesday, potentially bringing disruption and flooding

What to expect

- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- There is a small chance of fast flowing or deep floodwater
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

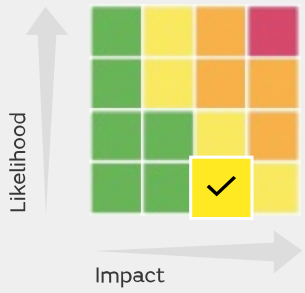
Yellow warning
Thunderstorm

Between
08:00 Tue 21 May 2024 and
21:00 Tue 21 May 2024

Further details

Areas of rain, perhaps heavy, are likely to develop quite early on Tuesday, probably breaking down into slow-moving heavy showers and thunderstorms during the late-morning and the afternoon. Showers and storms should ease into the evening.

In some areas 20-30 mm could fall in just an hour or two, with the wettest spots perhaps seeing as much as 50-60 mm. Impacts might be more likely for any places that catch (or caught) Monday's downpours. Hail and lightning may be secondary hazards in places.



Very low likelihood of medium impacts

What should I do?

Consider if your location is at risk of flash flooding. If so, consider preparing a flood plan and an emergency flood kit.

Prepare to protect your property and people from injury. Before gusty winds arrive, check to ensure moveable objects or temporary structures are well secured. Items include; bins, garden furniture, trampolines, tents, gazebos, sheds, and fences.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It’s easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car).

Yellow warning
Thunderstorm

Between
08:00 Tue 21 May 2024 and
21:00 Tue 21 May 2024

Further Details (continued)

Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.
Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
